Our firm has had a business relationship with Aztec, and its associate, Steven Spengler, since approx. 2009. Aztec and Steven Spengler, has served us efficiently with great customer service and equipment needs. All-in-1 Building Services, LLC has had amazing success with the Aztec Floor system that Steven helped us put together. This system, including the sidewinder, liquidator, guzzler, battery powered auto-scrubber, and grand finale, and has been key in saving All-in-1 personnel countless time and aggravation associated with the stripping and waxing of tile floors. My employees cannot believe the difference these machines have made in the execution of their job. It has made All-in-1 floor projects more profitable and has helped employee morale in relationship to these strip and wax projects. Thank you for your customer service, professionalism, and outstanding equipment. I will recommend Aztec Products to anyone needing your services, and will consider Aztec Products for All-in-1's future needs.

Sincerely,

Stephen Boyle
